# Cycling Class Descriptions

<b>General Cycling Overview</b>	Indoor cycling integrates motivating music, mind-body synergy and unparalleled training benefits. Stationary bicycles are used to simulate the effects of inertia and momentum. Whether you're a beginner or an experienced cyclist, bikes can be adjusted to meet your individual ability or physical need. Your instructor will lead you through different styles of rides focused on endurance, strength, intervals, high intensity and recovery. A total-body workout to burn calories, strengthen your cardiovascular system and increase muscular endurance. <b>Recommended equipment: cycling/tennis shoes, padded shorts, water bottle.</b>
<b>Intermediate to Advanced Level Classes</b>	Classes are not exclusive to the experienced rider, as they can be self-regulated and the bikes adjusted to meet the individual ability of the novice or beginner.
<b>Beginner Cycling (all levels)</b>	This class will prepare our beginner riders to participate and feel comfortable in our cycling classes. Learn the basics of bike set-up, hand positions, body positions, alignment and cardiovascular conditioning. New cyclists will be introduced to rides that include intervals, endurance, strength and recovery.
<b>Cardio 20/20/20 (all levels)</b>	This class includes three 20 minute intervals including cycling, circuit training and core training. This is a workout to produce total body results.
<b>Cycle &amp; Circuit (all levels)</b>	Cardio and strength come together when simulating an outdoor ride with sprints, hill climbs and other terrain, the class ends with a variety of circuit exercises on gym floor.
<b>Cycling Interval</b>	Combines short, high intensity burst of speed, with slow recovery phases. This is repeated several times with variations throughout the class.
<b>Cycle Pump (intermediate to advanced)</b>	Start this ride with fast paced cycle intervals, then move on to the finish line with a challenging array of resistance training exercises.
<b>Griz Spin (intermediate to advanced)</b>	This one is the instructor's choice. Burn calories while improving cardiovascular endurance and muscular strength.
<b>Mellow Cycling (all levels)</b>	Emphasis is on providing a fun and effective leisurely workout to the sounds of inspirational music. Warm up, cycle, cool down and stretch.
<b>Road Profiles (all levels)</b>	Come ride it or race it! This class offers a variety of outdoor road profiles with emphasis on proper riding techniques to improve your outside ride in the off season. <b>2 water bottles recommended.</b>
<b>Senior Cycle</b>	30 minutes of cycling cardio at a low-moderate intensity. Please bring a water bottle.
<b>Tri Training (all levels)</b>	Work on your speed, form and endurance with certified triathlon instructor, Rob. Start in the pool, transition to cycling, finish with a run. Come to one, two or all three.
