Barre-less (all levels)	It's barre without the barre! Classic barre exercises have been adapted to be performed in the center of the room either standing or on the floor using theraband. You will challenge the core for balance and total body proprioception.

Pilates (all levels)	A contemporary, anatomically based approach to the mind-body exercise developed by Joseph Pilates. Exercises focus on stability and/or mobilizing the spine and pelvis while improving functional strength, flexibility, endurance and posture.
Restorative Yoga (all levels)	Uses props to help body relax into poses held for several minutes to encourage passive stretching.
Tai Chi (all levels)	A mindful practice and low-impact exercise. It can be done by anyone who can walk. Tai Chi improves balance, cardiovascular endurance, strength and posture.
Vinyasa Yoga (all levels)	Postures are connected with breathing, helping to build mental focus, clarity, determination, and patience. Vinyasa yoga may also be known as a flow style yoga.
Yin Yoga (all levels)	A synthesis of traditional yoga and eastern approaches to healing and well-being. Through sustained holds, in the floor postures of the Yin Yoga tradition we are able to bring healing to our organs, and the connective tissues of the body.
